## Specifications

For 16 & 35mm images on fiche, AP cards & roll film

Motorized Roll Film Transport

Hi Res Image Capture Sensor

7-54x Magnification

1 second image capture

1 Year Warranty

12"L x 14"W x 8"H

Weights 24 Lbs.

USB 2.0

Low energy consumption FL illumination pad

## Minimum pc requirements

Pentium 1.5G, Celeron, AMD or above

500MBram  
CD-ROM

16-bit color LCD w/  
display area to fit  
microform image  
at original size  
SVGA 1280x768

W98 thru W8 &  
Mac OS

## Digital Microform Capture

*The Micro-Image Capture 5M is the latest in digital microform image capture technology featuring a high resolution lens & optical sensor allowing for full-size quality viewing, printing and digital capture of 16 & 35mm microfilmed images.*

*Motorized film transport provides high, medium and low speed push button operation*

## Fast Output Distribution

Capture an image with a simple keystroke and save to your PC as a digital file or send to your network printer for a hard copy.

- Configure for single or multiple outputs
- Send to network printer, file folder, e-mail address or ftp site
- Scale images sent to printer
- Auto name file feature or prompt before saving
- Display and capture in B/W, black line, gray scale, color or invert mode
- Capture full screen, area select, drag select or multi area select
- Simple to use graphical user interface

## Functionality

Capture software provides for many adjustments to image quality like contrast, brightness, and resolution as well as optical flip, rotate and invert (neg to pos). Send images instantly to your printer, e-mail or to a designated pc folder with one keystroke. Our exclusive multiple output functionality allows for printing, save as image file, e-mail, & ftp outputs that can be configured to activate simultaneously!

Output image format types include PDF, TIFF, JPG, PNG, PSD, BMP, CAL, GIF, CAL, WPG and more.

Our multiple capture options allow for full screen capture, frame capture area selection by mouse drag and multiple captures of selected area on the same image that combine automatically on one page for print, save or e-mail output functions.
